

## INTEGRATED MANAGEMENT SYSTEM POLICY

The leadership and workforce of Moiz Steel are dedicated to upholding a prominent role in the "Production of Deformed Steel Rebars. Our unwavering focus on maintaining high-quality standards, occupational health & safety, and environmental responsibility reflects this commitment. We aim to ensure the complete satisfaction of our esteemed customers through collaborative teamwork, efficient communication, and continual improvement.

We are committed to adhering to international, national, and internal health, safety, environmental, and quality standards, as well as the relevant laws and regulations applicable to our organization's context. We are dedicated to implementing tangible measures to minimize waste, conserve natural resources, prioritize the use of renewable and efficient energy, and mitigate occupational health and safety risks for our personnel to acceptable levels.

Moiz Steel prioritizes the periodic review and attainment of well-defined objectives and targets to continually improve its management systems across all undertaken activities.
